## SDDP Pledges \$2,500 to Sioux Falls Open For Business Campaign:

In addition to being part of the coalition in opposition of the anti-agriculture ballot initiative in Sioux Falls, the SDDP Board of Directors has committed a contribution of \$2,500 to help fund the campaign in support of the Wholestone project and other business development in the state. Changing the rules after a company or farmer has met or exceeded local zoning requirements is simply bad for agriculture and bad for business. Visit <https://siouxfallsoopenforbusiness.com> for more information and **if you are a resident of Sioux Falls vote "NO on the Slaughterhouse Ordinance"**.

## The new plant supports the future of ag in South Dakota.

Voting No on the Slaughterhouse Ordinance will strengthen agriculture, South Dakota's number one industry. It'll protect farming's next generation — the children who'll one day run our family farms.

Sioux Falls new pork plant will be a clean, state of the art facility — with ownership 100% held by local American farm families. It will connect livestock producers with locally owned processing, all within our states border to keep jobs and profits at home. And it will help secure your family's access to safe, affordable, locally grown food.

## Overwhelming Support

The Greater Sioux Falls Chamber of Commerce is opposed to it, along with support from:

And everyone who supports free enterprise and is against excessive regulation.

### SD Dairy and SD Cattlemen’s Association Collaborate on Annual Meeting:

As we know, Dairy is a significant contributor to the overall Beef industry in South Dakota and efforts are underway to find more ways to collaborate with the two organizations. SDDP is helping sponsor the SD Cattlemen’s Annual Meeting on December 12th and with that comes the invitation for Dairy Farmer leaders to participate in the social networking and recognition of the dairy support in all social media and other promotion of the event.

By working together Dairy may one day gain a seat at the table and a voice to provide input on the Beef industry which dairy farmers play a significant role in.
